
Title: Vincent's Journal

Author: Vincent

Here we wait, till
nightfall to take a shot
at our freedom. We hide
in the barrels, due to my
newfound friend's ability
to overpower three
guards! I was going to let
the guards grab him and
make a run, however
before I got to the door
one guard was thrown
clear across the room
against the door!

Well, I turned around and
realized that I
underestimated my
companion, and should
recruit him into the
Brigand's order.

I received confirmation on
that thought when three
guards were slain before
my very eyes, and he
said we better get going.

So here we wait. I
wonder...am I know the
fall guy?
